Good day, everybody,

My name is Vitaliy Ilichev. I am taking piano lessons with a fantastic teacher with 33 years of teaching experience either on piano or grand-piano. My progress is incredible as I started as an absolute beginner. He is currently taking new private students and he is ready to travel to your place. He is all about music that is why I am helping him with Internet advertising:)

All prices and dates should be confirmed with him. He can also help you to choose an instrument, arrange delivery and tuning. For more information, please call
